THEY WANT FREE SILVER.

Unequivocai Declaration of Ohio Democrats in Favor of Free Coinaga.

Quite in Contrast With the Position of the New York Republicans.

The Connecticut G. O. P. Favors a Gold Standard by Insisting on an International Agreement.

COLUMBUS, Sert. 19. - The democratic convention consumed about four hours to-day in making an important bit of history. The convention was slow in convening, an son was the occasion for an outborst of applause that indicated he had many follo ers among the delegates. Senator Brice came upon the stage from a side entrance, and as soon as his presence was discovered there was a round of applause, but it was not nearly so enthusiastic as that which greeted the free trade congressman. There were a few scattering hisses, but they were hushed and drowned in appleuse.

Hon, Frank Hurd, of Cincinnati, was introduced as temporary chairman. Hurd | missi was received with an outburst of applause. His remarks on the new tariff law were loudly cheered and his denunciation of the A. P. A. was loudly applauded. In sounding the key-note of the Ohlo democrats Hurd said that f:ee wool "was worth more than all the other provisions of the new tariff law." He gave the credit for it to President Cleveland, Secretary Carlisle, Senator Brice and the democratic congressned of Ohio.

The platform proposed praises the efficient, economical and honest administration of President Cleveland; declares protection a fraud and favors such further re-duction of the tariff as can be made, to the and that purely protective duties be abolished. The business failures, strikes, low wages and low prices of farm products are enumerated as results of the McKinley

"We dissent," says one plank, "from the "We dissent," says one plank, "from the president's view, construction and treatment of the silver question, and believe that silver should be restored to the position it occupied as money prior to its demonstization by the republican party, and to that end we favor the unlimited coinage of silver at the ratio of sixteen to one, and with equal legal tender power."

An anti-free silver proroaltion was defeated by a vote of 468 to 319.

The convention, by a vote of 467 to 328, declared in favor of the election of United States senators by the people. This is regarded as tantamount to an indirect censure of Brice.

Keefer; state commissioner of public schools, Dr. J. A. Lesch.

Columbila, S. C., Sept. 19.—The state democratic convention met to-day. The platform endorses the national platform, but denounces the action of President Cleveland in appointing republicans to office, joining forces with republican leaders against a majority of his party in the demonetization of sliver; the veto of the seignlorage bill; the invasion of state rights, and of commends that a conditional pardon be granted him; as does Hon. J. B. Losee, of Anaconda; Hon. J. W. Strevell, of Miles City, and others.

"The conditions under which I pardon the said Charles H. Richardson are as follows: That his father remove him from the reform school without excess to the state; efforts to improperly control the house of representatives and sonate by the use of patronage."

HARTFORD, Conn., Sept. 19.—Vincent Cof-fin was nominated for governor by the re-publican state convention to-day. The sliver plank in the platferm is as follows: "The republican party holds that American sliver, as well as American gold, should be used as standard money under such international agreements as will incure the maintenance of a parity of value."

DEEP WATERWAYS.

Theory of This Continent: A Triangle With Chicago in the Corner.

TORONTO, Ont., Sept. 19 .- The deep waterways convention resumed business today. Vice-P esident Smalley occupied the chair and President J. E. Thompson read a paper which was characterized by Mr. Flower, of St. Paul, as temperate, patriotic, liberal and concise, leaving no phase of the question untouched. G. A. Howland explained the terms and effects of the Washplained the terms and effects of the Washington treaty of 1869. In his remarks upon the treat. Howland was applicated, and speaking of war between the United States and Canada as aiready verging on the impossible, he urged the formation of an international court to decide every possible question that can arise in the future.

The convention decided to make a report and recommendation for an international

Miss Lizzle Smith Comes Back From Boulder Mrs. Frank W. Cole. In the Boulder Age of yesterday appears the following wedding notice:

Cole-Smith-In Boulder, Mont., on Tuesday, Sept, 18, 1894, by Wm, T. Sweet, J. P., Mr. Frank W, Cole and Miss Lillie Smith, both of Helena.

This ends an interesting little romance or what is as near a romance as this practical nineteenth century life affords. It will be remembered that Lillie Smith is the young lady who a few months ago was taken to the House of the Good Shepherd against her will because she was determined to get married. Her mother was opposed to her daughter's marriage and although the young lady had not lived at home for some time, Mrs. Smith, with the aid of the city authorities, took the matter in hand. One evening, just after her lover had left her at the place she was living on No th Park avenue, Sergeant Murphy, in a carriage, called for the girl. Miss Smith left in that carriage against her will and was taken to the Catholic seminary, where her

mother wanted to keep her until she became of age,

Later on Mr. Cole tried to invoke the aid of the law in recovering his flances.

Although Mrs. Smith had a legal right to keep her daughter in the House of the Good Shepherd, she was finally induced to con-sent to release the girl. Tu-sday Mr. Cole and Mise Smith left for Boulder, and yes-
